

No. 7300 Check Valve

Used as specialty check valve for iron filters with Clack and Pentair control valves.

SKU: 7300

Type: Check Valve / Material: Plastic / Seal: Buna-S / Fluid Type: Drinking Water / Special Use: Water Conditioning

Plastic Check Valves for Water Conditioning

This specialized line of plastic check valves has been designed for use with iron filters in the water conditioning industry, engineered for installation on Clack and Pentair control valves. We use a one-piece, NSF Celcon molded body and spring retainer. The plastic line comes standard with a Buna-S rubber poppet, an extremely durable compound for use with potable drinking water. All other internal components of stainless steel. Each valve is tested at very low air pressure for backflow prevention. All valves are 100% American-Made and built to last.

Dimensions

Part Number	Pipe Size	Flow Rate (Cv)	Overall Length	Valve Diameter	Valve Weight
7300-050-CLK	Clack	8 GPM	1.17"	1.15"	0.05 lb.
7300-050-FLK	Pentair (Fleck)	8 GPM	1.17"	1.15"	0.05 lb.

Cv is flow (GPM) with a 1 psi differential pressure.

Materials & Operational Specifications

Part Name	Specs
Body	NSF Celcon M90
Stem	303 Stainless Steel
Poppet	Buna-S Rubber
Spring	302 Stainless Steel
Cup Washer	NSF Celcon M90
Locknut	18/8 Stainless Steel
Country of Origin	Made in the USA
Max. Temperature	225°F
Working Pressure	200 psi
Cracking Pressure	1-2 lbs.
